

NORTH SHORE CITY COUNCIL

Election of five (5) Councillors for the Central Ward

Chris DARBY

Clean Beaches - Public Transport

I want North Shore to be a first-rate city where people and environment come first. I want to live in a city with strong communities, thriving economy and forward-thinking council.

I have been a dedicated councillor for 3 years, advocating for public transport, protecting our environment and heritage and championing urban design.

Spiralling petrol prices and frustrating congestion bring renewed urgency to deliver integrated public transport. Let's make walking and cycling safer, plan for the impacts of climate change, tackle urban sprawl and revitalise town centres.

I will partner with business so we can all prosper, advance fibre broadband and promote Takapuna as North Shore City's heart.

Rising rates hurt families and elderly most. I promise genuine revenue reform, accountability and sensible financial management.

We need fresh thinking to create an outstanding city. With your support I will continue to offer the vision and leadership needed. Vote Chris Darby.
